

Tattoo Aftercare

We advise PALMERS COCOA BUTTER for your aftercare needs. This is available from most chemists and supermarkets. Always check the ingredients of your aftercare products carefully for allergies you may have.

Your tattoo will be wrapped upon leaving the studio you can remove this after an hour or so; before so please make sure your hands are clean and washed with anti bacterial soap (you must wash your hands before everytime you touch your tattoo or apply aftercare) and you are in a clean environment to do so. After removing your wrapping wash your tattoo gently with warm soapy water, this soap needs to be alcohol and fragrance free, pat dry with a clean fresh towel and apply a very thin layer of cocoa butter. There should be no visible excess aftercare product on the tattoo, supple not saturated is the way forward.

For the next few days wash the tattoo and apply a thin layer of cocoa butter as described above 2-4 times daily or whenever the tattoo feels dry or irritable

DO NOT apply vasaline to the tattoo whilst the area is healing, this may cause discolouration and prevent the area to breath. Avoid any moisturisers and products containing alcohol or aloe vera as this may cause irritation.

DO NOT submerge your tattoo in hot water whilst it is healing (a tepid bath is fine, showering is advised)

DO NOT pick at or scratch any of the scabbing during the healing process as this will cause your tattoo to fade or lose definition.

DO NOT expose a fresh or healed tattoo to prolonged periods of extreme sunlight as the natural UV rays may bleach your tattoo.

AVOID swimming during the healing process as chlorine may damage your tattoo.

AVOID contact with animals or children whilst your tattoo is healing. If you are unsure of how to protect your tattoo please ask.

TOUCH UPS are available free of charge for up to 6 months after your tattoo. This covers you for normal tattoo wear and tear, if a touch up is needed because of your aftercare negligence we will not offer a free touch up. We will not offer free touch ups for tattoos on the palm of the hand, soles of feet, side of foot or side of hands/fingers.
